Abstracts

	No.	Page
AATCC—145th Research Committee meeting	1	60
See also **Detergency; Dyeing; Dyes; Finishing; Rayon; Research**		
Abaca industry (Boonstra)	9	521
Abbot-Cox process: *See* **Dyeing**		
Abrasion		
Producing uniform abrasion; application to testing textiles (Schiefer)	11	633
Recent advances in abrasion testing of textiles (Dean)	6	343
Abrasive effect of delustered rayons on steel needles and card wire (Lasse, Cunz)	4	243
Edge abrasion, new method of testing (Fogler)	3	171
Median as typical value for Walker yarn abrader data (Tanenhaus)	11	633
See also **Wear-testing**		
Absorption		
Infrared absorption cell for liquids (Coggeshall)	1	46
See also **Cellulose; Color; Dyes; Fibrous proteins; Lignocellulose; Moisture relations**		
Absorption spectra: *See* **Cellulose**		
Accident prevention in dyeing and finishing industries (Morton)	1	62
Acetate staple fiber production; problems, present status (Gruber)	10	582
Acetone: *See* **Cellulose reactivity; Nitrocellulose; Polyvinyl acetate**		
Acetylation: *See* **Cellulose; Cellulose fibers; Cellulose reactivity; Zein fibers**		
Acids: *See* **Amino acids; Cellulose; Chlorous acid; Cotton; Fibrous proteins; Nylon; Oxycellulose; Pectin; Polyamides; Sulfonic acids; Terephthalic acid**		
Acrylonitrile: *See* **Synthetics; Viscose**		
Adhesion		
Fundamentals of tackiness and adhesion (Bikerman)	7	388
See also **Rubber**		
Adhesion tester, pocket-type, for organic coatings (Phair)	4	225
Adhesives		
Recent developments in adhesives (Spaulding, Manning)	8	461
See also **Resins**		
Adsorption		
Photosensitive adsorption of water vapor on wool (Bright, Carson)	3	184
See also **Fibrous proteins; Polymers**		
Ageing: *See* **Cellulose; Viscose**		
Air conditioning—Psychrometric chart study (Barr)	3	182
Air contamination in cotton textile processing (Silverman)	6	352
Air permeability		
Measurements of air permeability by two machines (Landsberg, Winston)	11	634
Air permeability of fabrics (Rainard)	11	633
Apermeter, new determination apparatus (Skinkle, Moreau)	7	385
Aircraft textiles: *See* **Fire-resistance**		
Alcoholysis: *See* **Cellulose**		
Aldehydes: *See* **Sucrose**		
Alginates		
Alginates (Kenchington)	5	300
See also **Rayon**		
Amino acids derived from cystine in chemically modified wool (Consden, Gordon, Martin)	4	225
Ammonium compounds		
Quaternary ammonium compounds as textile auxiliaries (Bhatt, Mehta, Thosar)	3	174
See also **Viscosity**		
Amylopectin: *See* **Carbohydrates**		
Animal fibers		
New reactions of animal fibers (Lehmann)	3	174
See also **Cashmere; Felts; Fibers; Fibrous proteins; Fur; Hair**		
Apermeter: *See* **Air permeability**		
Artificial fibers: *See* **Cellulose; Fibers; Fibrous proteins; Paper; Spinning**

Titanometry, quantitative analysis of organic compounds by (Genevois)	8	453
Titer: *See* **Yarns**		
Torsion: *See* **Fiber properties; Rubber**		
Tow: *See* **Plastics; Wastes**		
Tow-to-top		
*Tow-to-top process in German worsted industry (McGill)	12	730
Turbidity—longitudinal dispersion of infrared rays in optically empty and turbid media; molecular weights of (protein) substances (Lepeschkin)	8	452
Twisting: *See* **Heating; Nylon; Yarns**		
Ultracentrifuge: *See* **Cellulose**		
Ultramarine blue (anon.)	4	235
Ultrasonics—methods, applications (Bradish)	9	516
Ultraviolet light: *See* **Cellulose**		
Upholstery: *See* **Dyeing**		
Urea derivatives instead of urea for textile treatment (anon.)	2	121
Urea-formaldehyde reaction, kinetic study of (Smythe)	7	394
Vacuum engineering, new developments in (Jacobs, Zuhr)	4	243
Vegetable matter: *See* **Fibrous proteins; Wool**		
Velan PF: *See* **Finishing**		
Velon monofilaments; manufacture, use (Rowland)	3	180, 184
Vibroscope: *See* **Filaments**		
Vinyon, dyeing of (Woodruff)	5	297
Viscometry		
Bingham viscometer; viscosity standards (Swindells)	7	387
Capillary-type viscometer (Shoemaker, Hoerger, Noyes, Blaker)	8	454
Photographic-viscometric apparatus and technique (Riley, Seymour)	1 47;	2 110
See also **Pectin**		
Viscose		
Determination of air in viscose (Castillo)	3	173
Couette measurements on viscose (Erbring)	3	173
Microscopical examination of viscose (Castellani)	2	110
Investigation of fine structure of freely coagulated viscose fibers by optical and electron microscope (Horio, Kobayashi, Kondo)	11	639
Structure of viscose; filtering properties (Bergek, Ouchterlony)	7	393
Alkaline solutions of reject viscose (Brissaud)	4	233
Action of acrylonitrile on viscose: carboxylated rayons (Hollihan, Moss)	12	727
Action of acrylonitrile on normal ageing process (Hollihan, Moss)	8	458
See also **Cellulose; Rayon; Water-repellency**		
Viscosity		
Advances in non-Newtonian viscosity (Eyring, Halsey)	7	402
Measurement of viscosity and shear elasticity of liquids by torsionally vibrating crystal (Mason)	6	346
Viscosity measurement of solutions of rayon pulps in cuprammonium hydroxide (af Ekenstam)	4	228
Effect of molecular-weight distribution on reduced viscosity-concentration coefficient (Davis)	11	643
Stability of viscous flow between rotating cylinders (Meskyn)	4	228
See also **Adhesion; Cellulose; Cellulose acetate; Cotton; Dilatancy; Irish moss; Nitrocellulose; Nylon; Polymers; Polystyrene; Polyvinyl acetate; Starch nitrates; Synthetic fibers; Thermoplastics; Viscometry**		
Warping, Warps		
Warper drive, electronic, gives constant yarn speed (Demartini)	7	399
Beam warping (Strong)	11	651
Small cores in warp beams (Demartini)	4	239
Warp costs cut by continuous dyeing slasher (Newell)	12	732
Tricot requires careful warping (Graham)	2	119
See also **Sizing**		
Washing		
Washing process (Kling, Langer, Haussner)	8	460
See also **Testing**		
Wash-resistance: *See* **Dyes; Sizing**		
Wastes		
Industrial wastes (Geyer)	8	463
Fiber waste in cotton yarn manufacturing processes (anon.)	1	52
Utilization of sawdust and fiber-tows in preparation of dye (Biswas, Athawale)	6	349
Wool-scouring wastes treated by new process (Faber, Howard)	11	654
See also **Cotton; Wool grease**		

	No.	Page
Water: *See* **Cellulose fibers; Polymers; Textile industry**		
Waterproofing of fabrics (Prigozhin)	8	460
Water-repellency		
Evaluation of water-repellent treatments on 23 cotton fabrics (G. Smith, Wellington)	11	649
Water-resistant treatments (Pingree)	2	117
Properties of water-repellent fabrics (Rowen, Gagliardi)	5	302
Correlation of water-repellent garment performance and laboratory penetration tests on fabrics (Slowinske, Pope)	7	387
Relation between water-resistance and water-repellency of viscose fibers (Lev, Rogovin)	2	118
Water-vapor permeability		
Water-vapor permeability, electric hygrometer determination of, at low temperature (Van den Akker)	8	454
See also **Diffusion**		
Wear: *See* **Sizing**		
Wear-testing		
Wear-tester, fabric (Masterson)	4	229
Abraser technique simplifies wear-testing (Schulze)	4	225
Weathering: *See* **Dyeing; Rotproofing**		
Weaving		
Developments in weaving (Glover)	12	733
See also **Lubricants and lubrication; Rayon; Shuttle**		
Webs: *See* **Laminates**		
Wet strength		
Relations between structure and properties of textile fibers: wet strength (Centola)	6	350
See also **Cellulose fibers**		
Wettability: *See* **Emulsions**		
Wetting		
Speed of wetting of textile materials, hydrometer method (Gruntfest, Hager, Wilson)	7	387
See also **Emulsions**		
Windproofing: *See* **Testing**		
Wood: *See* **Cell wall; Cellulose; Paper; Rotproofing**		
Wood fibers		
Fine structure of wood fibers (Dolmetsch)	2	113
See also **Cellulose nitrate**		
Wood pulp—electron microscope structure of cellulose powder from wood pulp ground very dry (Hermans)	5	292
Wool		
Compressibility of wool (van Wyk)	5	291
Developments in chemical modification (stabilization) of wool (Harris, Brown)	11	643
Measurement of damage in wool materials; modification produced by buffered acid and alkaline solutions (Whewell, Bee)	7	390
Photoelectric method of estimating wool damage (Semple)	9	516
Determination of wool in mixtures with cotton (Giovanna, Cerbaro)	6	346
Sodium hydroxide for determination of vegetable matter in wool (LeCompte, Coe)	5	292
Felt-resistant wool by chlorination (Zimmerman)	11	649
Trends in production of nonfelting wool (Phillips)	5	302
Frictional properties of wool (Thompson, Speakman)	2	118
Handle of wool (Mercer, Makinson)	5	296
*Preparation of wool for carding and combing (Levering, Lofft)	8	464
Investigation of wool by electron microscope (Olofsson)	9	519
Electron-microscope investigation of cuticle of wool (Mercer, Rees)	4	233
Action of sulfites on cystine disulfide linkages of wool; fractions (Lindley, Phillips)	9	518
Chloramine with ammonia as activator for disinfecting wool infected with spores of anthrax (Ginsburg, Milyavskaya)	2	122
Wet chlorination of wool textiles and mixtures (Edwards)	2	117
Utilization of wool and mohair in Texas (Pent)	9	522
See also **Adsorption; Blends; Cashmere; Decating; Degreasing; Dyeing; Dyes; Fibrous proteins; Friction; Mixtures; Mothproofing; Research; Scouring; Selvage; Shrinkage; Shrinkproofing; Testing; Textile machinery; Wastes**		
Wool grease		
Recovery and processing of wool grease (Hillier, Campbell)	7	402
See also **Degreasing**		
Woolens		
Staple fiber in woolen industry (Levinskiĭ)	3	180
Serviceability of 3 weights of wool serge (Lund, Phelps, Norton, Miller)	7	399
Women's woolen overcoating cloths (anon.)	3	179
*German wool textile and mantle plush manufacture (Barber *et al.*)	12	730
See also **Carding; Decating; Dyeing; Felts; Testing**		
Worsted		
New worsted spinning on American system (McConnell)	4	239
Worsted drawing advances (Martin)	11	650
Improving worsted yarn quality (anon.)	6	351
Large packages in worsted trade (Audley)	12	730
Worsted spinning costs, other problems (anon.)	3	184
*Worsted spinning in British and U. S. zones of Germany (Bates *et al.*)	3	181
See also **Dyeing; Spinning; Textile machinery; Tow-to-top**		
Xanthation: *See* **Cellulose**		
X-ray diffraction		
X-ray diffraction studies of color variation of iron oxide pigments (Birnbaum, Cohen, Sidhu)	4	232
Study of vegetable fibers by x-ray diffraction (Bose, Ahmad)	10	580
See also **Jute; Pectin; Polymers**		
X-rays: *See* **Cellulose; Cellulose fibers; Fibrous proteins; Pectin; Plastics; Polyamides; Polyisoprenes; Polymers; Sodium pectate; Swelling; X-ray diffraction**		
Yarns		
Calculating yarn number and titer (SVMT Committee 25)	3	174
Characterizing yarn and thread according to fiber, fineness, twist (SVMT Committee 25)	3	174
Yarns for special purposes; effect of filament size (Finlayson)	6	347
See also **Abrasion; Bleaching; Blends; Cellulose; Cotton; Elasticity; Fiber properties; Fiberglas; Friction; Heat; Nylon; Rayon; Testing; Textile industry; Worsted**		
Yellowing: *See* **Dyeing; Jute**		
Young's modulus: *See* **Elasticity**		
Yucca: *See* **Fibers**		
Zein fibers, acetylation of (Evans, Croston, Van Etten)	12	723
